About Me

Motivated junior frontend developer with a Master's degree in Management Information Systems. Proficient in HTML, CSS, and JavaScript, building responsive websites. Skilled in troubleshooting, user support, and problem-solving. Committed to delivering high-quality results, staying updated with industry trends. Eager to drive innovation and enhance user experiences.

Education

Masters in Management Information System
2021 - 2022
Lebanese University

BS in Management Information System
2018 - 2021
Lebanese University

Work Experience

Freelance | 2022-present
Freelance Website Developer | Wordpress Developer

- Developed, optimized, maintained, and delivered responsive and visually appealing websites using HTML, CSS, Javascript, and Wordpress
- Expanded my expertise by working on React JS websites, leveraging its efficiency and versatility to create dynamic user experiences.
- Stayed up-to-date with the latest web development technologies and trends, ensuring clients received cutting-edge services and solutions.
- Implemented effective SEO strategies and techniques to optimize websites for improved visibility, search engine rankings, and organic traffic growth.
- Write clean, efficient, and well-documented code

ISHOP | 2021-2022
IT support - Sales Representative

- Possessed a solid financial background, enhancing proficiency in managing remittance transfers and addressing clients' financial needs, specifically using Western Union.
- Installed and configured hardware and software for computers and mobile devices
- Conducted wireless internet installations for clients, providing reliable connectivity and resolving any connectivity issues.
- Demonstrated a strong understanding of business workflows.
- Acquired new technical skills through continuous learning and training, expanding expertise in diverse areas including technical environments such as Linux.
- Leveraged cold calling techniques to engage potential clients
